

The Setia City Convention Centre combines the best in hospitality and modern facilities.

The Centre offers seminar package options that can be customised.

## Pick a green architectural beauty

**T**UCKED away from the hustle and bustle of life in the heart of Setia Alam, majestically stands a green architectural beauty, slick and elegant – the Setia City Convention Centre (the Centre) with plenty to offer.

The Centre, with its elegance and innovative design and style, is an ideal venue for any seminar and convention event. The two-storey Centre comes with a Grand Ballroom on the ground floor, housing up to 2,000 guests for a sit-down banquet or 3,000 in theatre seating, making the organisers spoil for choice.

Pre-function lounges are located on the ground floor with seamless access and eight function rooms on the mezzanine floor, providing natural light and an easy ambience for that special seminar or conference.

With seating capacities ranging from 20 to

90 persons, guests can be assured a memorable and successful event with the assistance of the experienced catering team.

The Grand Ballroom can further be divided into three smaller ballrooms catering for 500 guests each. As a prelude to the main event, the pre-function foyer can host up to 1,000 guests for a welcoming reception.

When it's time to get down to business, holding a business meeting or hosting a large function, the Centre has rooms to suit your needs. Close to the reception area is the boardroom that can seat up to 12 persons for a quick and convenient meeting space.

Apart from its green exquisite architecture and interior, the Centre offers a panoramic view of the beautifully landscaped gardens, perfect for outdoor events such as team building, carnival or family day.

The Centre offers seminar package options that can be customised to suit one's taste and preference. It works together with its appointed caterers to provide the best authentic Chinese, Malay and Indian cuisines.

The package deal includes complimentary usage of meeting room, standard writing materials and meeting amenities, including mineral water and mints, complimentary usage of one whiteboard or flipchart with marker pens and easer set, complimentary LCD projector screen, complimentary standard PA system with maximum two units wired microphones and complimentary usage of Wi-Fi in the Seminar room.

The Centre, with its intricate green design, is not only a stunning masterpiece but is the first convention centre in the country to be certified by Malaysia's Green Building Index

because of its green features that include solar panels and preferred parking for green vehicles.

The Centre has other green practices such as shark's fin not offered in the menu and 5% off parking bays dedicated for those who car pool.

Apart from creating business that is international, it has at the same time renewed focus on its core market.

Setia City Convention Centre is a grand project that combines the best in hospitality and modern facilities. This elegantly crafted centre showcases its fundamental principle of long-term sustainability and LiveLearnWork!Play lifestyle.
