## Discover Your Sanctuary Here

Setia Eco Park is more than just 791 acres of prime freehold land in Shah Alam; it is dynamic synergy with living nature. Awarded the FIABCI Prix d'Excellence Award 2007 for Best Master Plan and the FIABCI Prix d'Excellence for Best Residential (Low-Rise) Development in 2011, the township has a massive 25% of the land area dedicated to waterways, lakes, creeks,

landscape-themed parks, lush walkways, and a 56-acre forest park to trek in. Its Garden of Eight Fountains also won ILAM's Malaysia Landscape Architecture Awards (MLAA) 2015 Honour Award. Just as it's a sanctuary for the diversity of flora and fauna that thrive here in carefully crafted natural habitats, so it is for the residents Setia Eco Park.

### **Garden of 8 Fountains at Setia Eco Park, Shah Alam, Selangor**

The main features of Garden of 8 Fountains are the distinctive zones with eight unique fountain themes, including Fountain of Union, Fountain of Love, Fountain of Roses, Fountain of Wings and Fountain of Light. Located in Precinct 2 of Setia Eco Park, the park with a man-made waterway, which serves as a natural detention pond, is developed as a recreational park. The garden design serves as a communal recreation space that emphasises the beautiful local greenery in both flowering plants and tropical fruit trees. This garden provides contact point avenues for the community to spend their leisure time with families and friends for resting and picnics. The continuous pathways, easily accessible from any direction, allow the residents to take a stroll or cycle, and are convenient for the community as a whole. It has now turned into a favourite park for the surrounding neighbourhood to fulfil their recreational needs.
