Green living

Sustainable living is a lifestyle that attempts to reduce an individual's or society's use of the Earth's natural and personal resources. How does Malaysia fare in this respect? AZLEA BADRI speaks to two eco architects to find out.

HOW does an individual benefit from green living? It's a question that has been asked many times over the years. But the answer is not as simple as it seems. Green living is a lifestyle that attempts to reduce an individual's or society's use of the Earth's natural and personal resources. How does Malaysia fare in this respect? AZLEA BADRI speaks to two eco architects to find out.

Ching speaks on the building features for LEED Platinum certification. He says that the building is designed to be a model for other buildings in the region.
